

PLEASE NOTE: Travel insurance is only available to guests who have a valid US or Canadian mailing address where they reside. However, residents of the Quebec province are not eligible. If you live in the province of Quebec or in a country outside the US or Canada, you would need to purchase travel insurance from a local insurance provider.

Insurance can only be purchased at the time of deposit.

Our Insurance options also includes in-destination COVID-19 Medical insurance.

We always recommend getting travel insurance which can be of great help in case of any issues that may arise. Insurance is optional and additional. Insurance must be purchased at the time of deposit. Insurance can safeguard you against the unknown and provide financial refunds on your travel investment depending on the circumstance.

Insurance rates will vary based on residency, age, and total package price. Typical average insurance prices are between \$99-\$129 per person. While those are the typical rates, all 3 factors play a part in your actual price which can vary from \$69-\$199 per person.

The amount of refund is based on the reason you provide to the insurance company at the time you file your claim. The cost of the insurance is non-refundable once purchased.
